Academic Experience

SKILLS

Industrial Design

Product Design

UI/UX Design

Visual Design

Creative Development

Data Visualization

Interactive Web

Rhino 3D

AutoCAD

Adobe Illustrator

Design Sketching

Perspective Drawing

Engineering Drawing

Metalworking Practice

LANGUAGES

Chinese Native

English Gaokao 138/150

German C1

CERTIFICATES & AWARDS

- Goethe Deutsch B1
- telc Deutsch C1
- GPA Rank 1 in Industrial Design for the winter semester 2022/23
- Physics Admissions from LMU, TUM, KIT, RWTH Aachen
- 4x100m Relay Gold & 100m Sprint Silver
- Basketball Champion

YANG DING

Multidisciplinary Designer

Industrial Design / UIUX / Visual Art / Creative Development

PROFILE

A multidisciplinary designer focusing on Industrial Design, Product Design, UI/UX, Visual Art, and Creative Development. Experienced in product concept design, interactive web projects, data visualization, visual systems, and cross-cultural academic environments. Combines design intuition with scientific logic, engineering awareness, and technical execution to deliver complete design outcomes from research and concept to modeling, interface, and visual presentation.

EDUCATION

2025.04 – Present	Fuzhou University Industrial Design Engineering Drawing · Rhino 3D Modeling · UI/UX Design · Product Design Practice
2024.09 – 2025.01	LMU Munich Theoretical Physics Admitted by LMU, TUM, KIT, and RWTH Aachen for Physics. Developed scientific literacy, logical thinking, and analytical ability.
2023.08 – 2024.03	Leipzig University Language Course & Pre-studies Completed German language training and achieved C1-level certification. Built cross-cultural communication and independent learning ability.
2022.09 – 2023.01	Fuzhou University Industrial Design Ranked first by GPA in Industrial Design. Studied design sketching, perspective drawing, color theory, and foundational design expression.

EXPERIENCE

2025	Metalworking Internship Completed foundational metalworking, material understanding, process practice, and manufacturing workflow training. Strengthened structural awareness, material awareness, and feasibility judgment in product design.
------	--

SELECTED PROJECTS

2026	Chang'an Illustrated Chronicle An interactive web and visual data project exploring cultural storytelling, information structure, visual systems, and digital presentation around Chang'an culture. Web Design · Data Visualization · Solo Project
2026	AetherLeaf A product concept and interactive web presentation combining object design, visual storytelling, and creative development. Product Design · Interactive Web · Solo Project
2025	Deeptalk Responsible for pre-research, information integration, and core UI design. Delivered research analysis, concept development, and final interface presentation. UI/UX Design · Team Project
2023	Magic Cube Electric Clock A product and interaction design project exploring form, function, modular expression, and playful user interaction for an electric clock. Industrial Design · Product Interaction · Solo Project
2023	Atmosphere x Floor Lamp A product design project exploring lighting atmosphere, form language, and spatial experience through a floor lamp concept. Product Design · Lighting Design · Solo Project
